

I am OPPOSED to the lifting of the cross-ownership ban.

At a time when accurate and reliable news is essential for our continued existence as a free and open society, the repealing of the cross-ownership ban will concentrate the media power in just a few large, very influential corporations who will not act in the public interest. This concentration will result in "news" that is, in reality, "propaganda" reflective of the interests of the corporate ownership and not in the interest of the American people.

Please do not bend to the pressure being applied by News Corp., AOL Time-Warner, and other large media concerns. DO NOT repeal the cross-ownership ban.

Thank you for your consideration.

Sincerely,  
Dwight Brown
